CaSa

fall winter 2005

Finally

Home-couture, Sisley style. You can now dress your home with the flair and quality that has made Sisley's fashion famous throughout the world. With the same passion for detail and design, we have crafted five different lines to cover everything from bedroom to bathroom, from kitchen to living room.

Materials, patterns, textures and colours have all been chosen and adapted exploiting all our prêt-a-porter expertise, creating a range of sensations which can be mixed and matched to create flowing combinations or aggressive contrasts, to blend or distinguish the different environments in your home. Ethnic influences, space-age technology, traditional textiles and hi-tech materials in minimalist black & white or colours inspired by precious metals and exotic spices. From a napkin to a bath robe, from appetising table linen to sensual bed sheets, you can now dress your home the way you do. It's your home. It's your Sisley Casa.
